The fashion set by the acrobats in "A Span of Life," where three supple gentlemen link themselves together and form a living bridge, is going to be followed closely by the imitative playwrights this season. In "The Life Guard" at Niblo's next week there will be a living ladder in this style, and in "The Crossroads of Life" there will be another. They will be so general before the season closes that the tank, the locomotive and the real steamboat will be halled as novelties once again.
